

DEFENCE, COMMERCIAL & PRIVATE AVIATION FUEL HANDLERS COVERALL

FUEL RESISTANT, FLAME RETARDANT & ANTI-STATIC
waterproof and breathable

FUEL SPLASH PROTECTION

Glanda's refuellers coverall will provide protection against Jet Fuel kerosene and other petroleum based products. The fabric offers an Aramid/Viscose inherent flame retardant outer fabric laminated to a PU/PTFE anti-static membrane and an inner tricot lightweight knit.

INNOVATIVE DESIGN

Designed with increased comfort and maximum fuel run off, with attached adjustable hood that folds entirely in the collar when not required, sleeve and leg cuff Velcro adjustments, crotch to neck full front zippered entry, and fully seam sealed.

LABORATORY TESTS

Resistance to the penetration of liquid chemicals.

Kerosene	100%	PASS
1-Butanol	100%	PASS
Sodium Hydroxide	10%	PASS
Xylene	100%	PASS
Sulphric Acid	30%	PASS

COMPLIANCE

Fabric tested to penetration of liquid chemicals	EN 6530:2005-05	
Tensile strength at maximum force	ISO 13934-1:2013-08	
Tear Strength	ISO 13937-1:2000-06	
Washing	ISO 6330:2013-02	
Resistance to Water Penetration	EN 201811:1992-08	
Water Vapour Resistance Ret (m ² Pa/W)	EN ISO 11092:2014-12	
Shielding Factor S and Half Decay Time T ₅₀ (S)	EN 1149-3:2004-07	
Burning Behaviour	EN 15025:2003-02	
Water-Repellent (Spray Test)	EN ISO 4920:2012-12
