Our Evolution

Since 1987, Glanda has manufactured high quality wet weather apparel. In more recent years, Glanda has branched out further by manufacturing fire retardant apparel and chemical protective garments, along with continuing to flourish in the wet and cold weather market.

To represent this evolution, our company logo has been updated. It features a flaming landscape, including an oil rig, representing our specialisation in FR and chemical apparel, whilst also displaying our classic mountain design, representing our continued specialisation of wet weather apparel.

Our Services

We pride ourselves in being able to offer cutting edge design. We consult & liaise with you to gain a clear understanding of your requirement. We utilise state of the art Lectra CAD software, allowing us to tailor garments to meet your specific requirement. Our design team have a combined total of 102 years of experience, offering unparalleled capabilities ranging from the most basic work garment through to complex life preserving highly technical wear.

We are also offering specialised customisation of our signature garments. You have the opportunity to customise the following:

- logos and their positioning
- positioning of reflective tape
- garment styles/features
- colours

Products

Glanda has an extensive catalogue/repertoire of apparel designs to protect wearers from various hazards, including:

- Extreme Wet Weather
- Cold Weather
- Chemical Splash
- Flame Retardant
- Anti-Static
- Molten Metal Splash

Markets:

- Defence
- Emergency Services
- Mining
- Utilities
- Government Agencies
- Media Networks

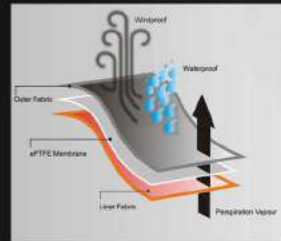

Quality Assurance

Glanda has been manufacturing high quality rainwear and warmwear in Australia for more than 20 years. We have invested in state of the art manufacturing equipment for the highest quality and most efficient manufacturing possible.

Glanda has a fully accredited quality management system to ISO 9001:2008

TORANT® Fabrics

The technology behind our wet weather fabric stems from 28 years of manufacturing wet weather garments. Glanda developed TORANT® branded fabric to provide industries with garments that are engineered to with-stand extended periods of heavy rain whilst also being mindful of alleviating heat stress. TORANT® fabrics are extremely waterproof and highly breathable, available in both 2 ply and 3 ply construction. Please contact us to discuss your particular requirement.

Glanda Online

www.glanda.com.au

Our website has been updated to cater for a better browsing experience. The new site is more interactive and informative than its predecessor, providing high definition images, news updates, and a comprehensive range of product pages. Be sure to check the site frequently for updates, including new garments and company happenings. Our website is also mobile friendly for those with smartphones.

Be sure to 'like' our page on Facebook for frequent updates. Our Facebook URL is: www.facebook.com/glanda

Chemical Splash Garments

Glanda is pleased to offer breathable chemical splash protection clothing incorporating TORANT® Chemical Splash Fabric. We manufacture two chemical splash models; the T-Chem 1 and the T-Chem 2.

Our garments offer splash protection against a wide range of chemicals. These include many common use acids and bases, aqueous solutions, polymers, and organic solvents. The garments are washable, reusable, and extremely durable, allowing the initial investment in the garment to be spread over time.

For more information on our chemical splash apparel, please visit our website.

glanda MILITARY

The Australian Defence Force take serious pride in their uniform, and at Glanda, we dedicate our expertise to manufacturing high quality and reliable garments that the defence force are proud to wear.

Glanda's military range includes extreme cold weather jackets, rainwear, warmwear, and overwater flight suits.

glanda LAW ENFORCEMENT

Glanda's range of law enforcement garments are specifically designed to cater to the unique needs of agencies such as Police and Road Utilities.

This includes access to the utility belt and integration of communication devices and various identification requirements.

glanda INDUSTRIAL WORKWEAR

Glanda's range of safety garments add further functionality to breathable rain protection. This includes the addition of reflective tape and the use of high visibility colours. The range also includes garments that protect the wearer from chemical splashes.

Glanda's industrial workwear range includes garments manufactured for Fire Departments, Ambulance, Media, Government Departments, and a range of other agencies.

glanda
rescue

Rescue work is often carried out in poor weather conditions with reduced visibility. Glanda's specialised rescue garments address these issues with the best fabrics for the job complemented by reflective tape and, when needed, blood born pathogen and chemical protection.

glanda
Outdoor Workwear

Glanda's range of outdoor workwear garments are designed for people who need protection from wind, rain or snow in their daily activities. Our Antarctica suits are a part of this diverse collection.
